Ri-elaborare, interpretare in chiave contemporanea le ispirazioni offerte dalla natura per dare vita a un progetto completo e versatile per pavimenti e rivestimenti. Una ricerca estetica che dall'analisi di numerose pietre ha portato a selezionare le caratteristiche di alcune tipologie e a tradurle in veste ceramica, attraverso la costruzione artificiale di variazioni cromatiche e combinazioni grafiche inedite rispetto ai materiali naturali.

Re-elaboration and interpretation in a contemporary style of the inspirations offered by nature to create a complete and versatile floor and wall tile design project. An aesthetic analysis of numerous stones has led to the selection of the characteristics of certain types of stones, which have taken on a ceramic form through the artificial creation of colour variations and graphic combinations which are unusual compared to the natural materials.

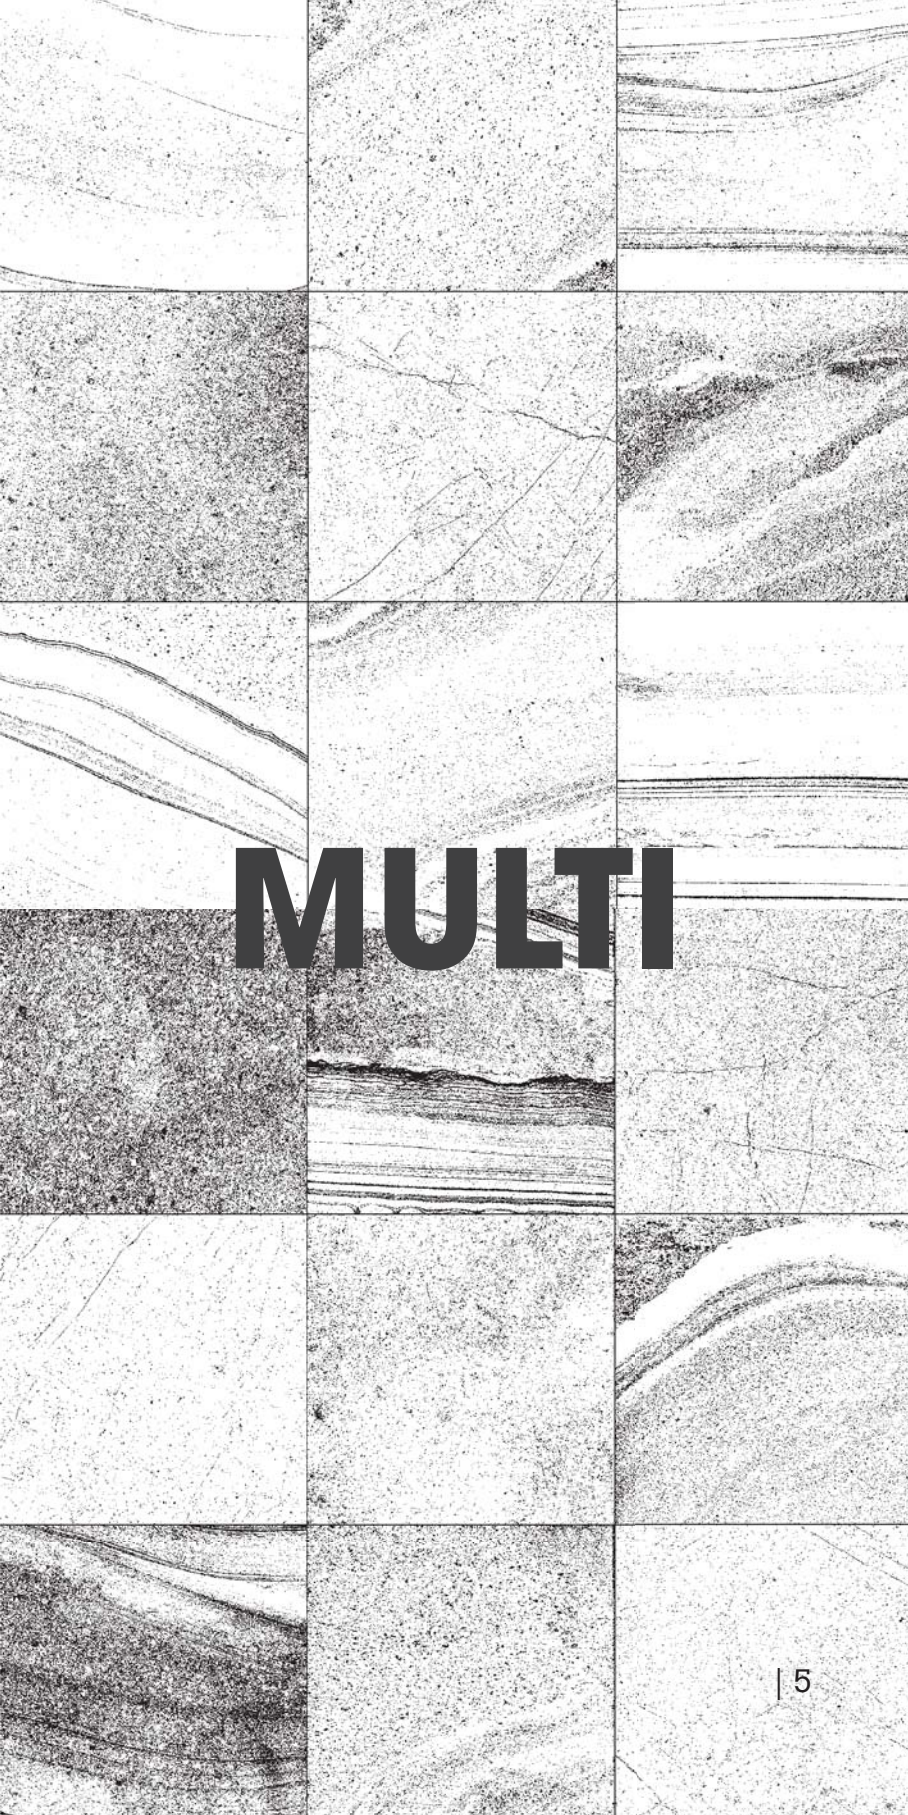

MULTI

Beige & Fog stone-patchwork.

Partendo dalla selezione delle 3 tipologie SINGLE, MULTI mescola sapientemente le grafiche in due colori, Beige e Fog, sviluppando una sintesi perfetta data dagli accostamenti.

Starting from the selection of the 3 SINGLE versions, MULTI skilfully blends the graphics in two colours, Beige and Fog, for combinations that create a perfect synthesis.

SINGLE 1 BONE - SINGLE 1 WARM

SINGLE 1 BONE

Bone e Warm, i colori piu' "caldi" della collezione, appartengono al mondo delle Limestones, caratterizzate dalla grana fine e dall'aspetto piuttosto uniforme, interrotto da sottili venature trasversali.

SINGLE 1 WARM

Bone and Warm, are the "warmest" colours of the collection and they belong to the Limestone world; they are characterised by a fine grain and a rather uniform appearance interrupted by fine transversal veining.

SINGLE 2 WHITE - SINGLE 2 GREY

SINGLE 2 WHITE

La Pietra Sandstone, dove sono ben visibili le caratteristiche stratificazioni ad andamento direzionato, si fa interprete dei colori White e Grey.

SINGLE 2 GREY

Pietra Sandstone, which is characterised by the typical cross-stratification, interprets the colours White and Grey.

SINGLE 3 SILVER - SINGLE 3 BLACK

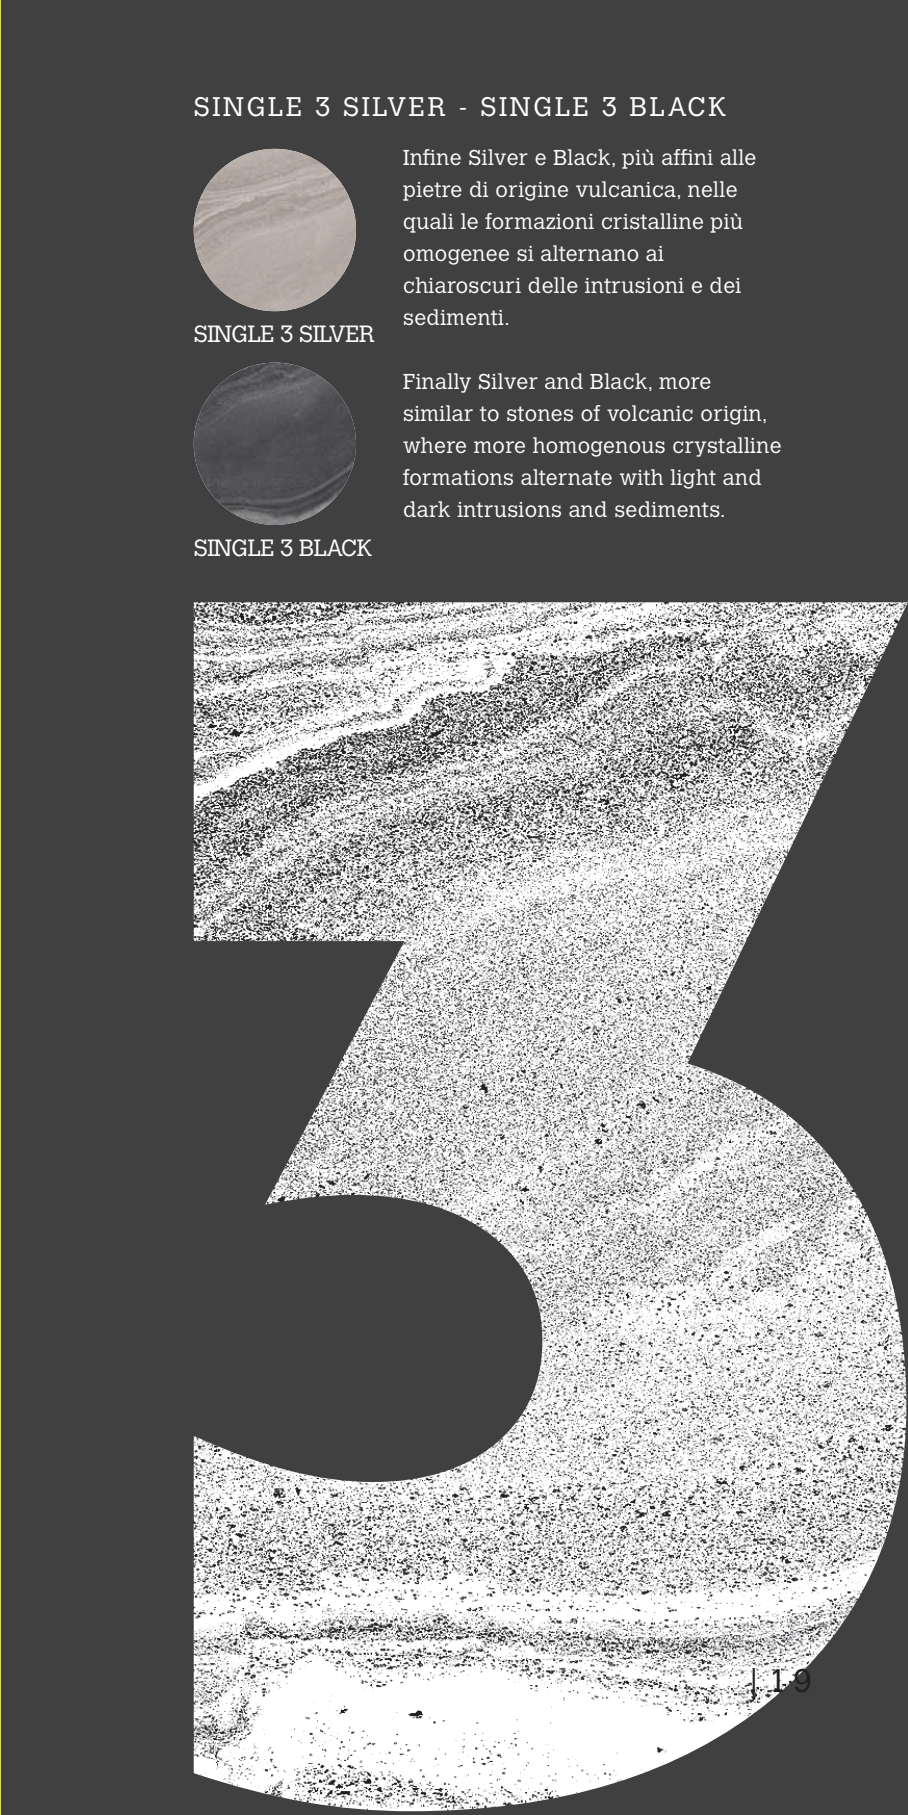

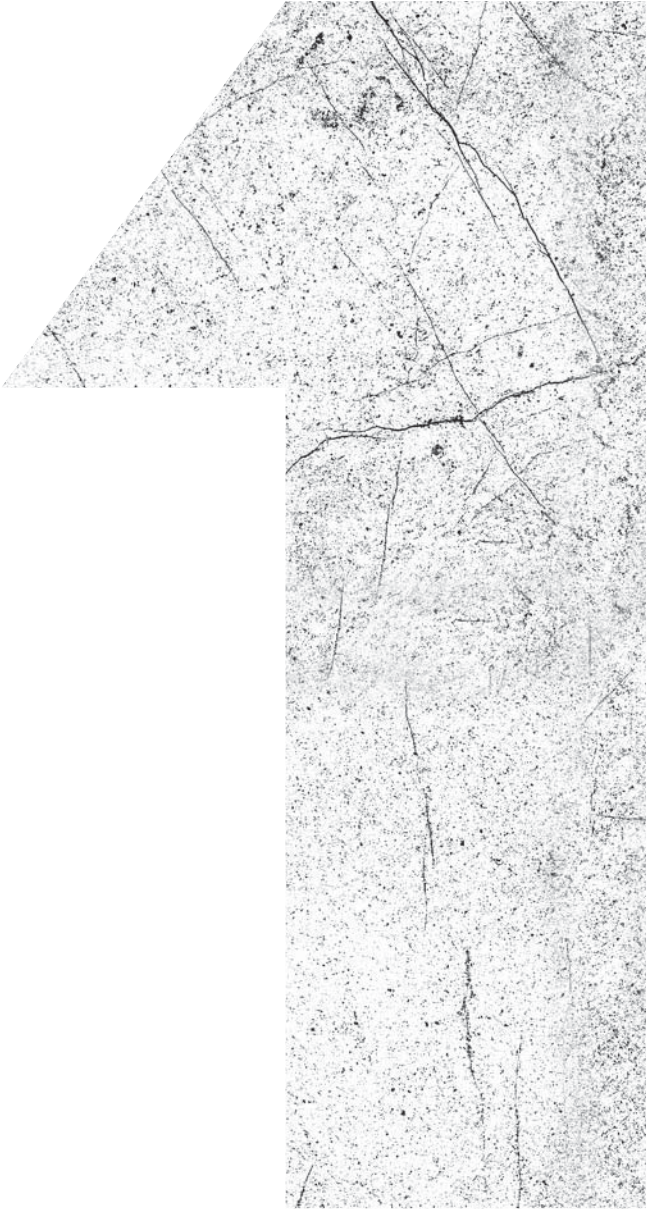

SINGLE 3 SILVER

Infine Silver e Black, più affini alle pietre di origine vulcanica, nelle quali le formazioni cristalline più omogenee si alternano ai chiaroscuri delle intrusioni e dei sedimenti.

SINGLE 3 BLACK

Finally Silver and Black, more similar to stones of volcanic origin, where more homogenous crystalline formations alternate with light and dark intrusions and sediments.

MULTI FOG

MULTI BEIGE

20mm

Lastra di 20 mm realizzata con la tecnologia del gres porcellanato, unisce la facilità di posa alle eccellenti prestazioni tecniche.

20 mm slab made using porcelain stoneware technology, combining ease of installation with excellent technical performance.

Posa Tradizionale

la posa tradizionale è ideale per la realizzazione di pavimentazioni carrabili.

Traditional Installation

traditional installation is ideal for floorings that will be driven over by vehicles.

Posa Sopraelevata

La posa sopraelevata consente il drenaggio delle acque piovane e la possibilità di ricavare uno spazio ispezionabile per il passaggio di impianti elettrici.

Raised Installation

Raised installation enables rainwater to drain away and accessible space to be created for the inspection of electrical wiring.

A secco su ghiaia

La posa su ghiaia permette il perfetto drenaggio delle acque piovane.

Dry installation on gravel

Installing on gravel enables perfect drainage of rainwater.

A secco su erba

La posa diretta su erba permette di creare percorsi e camminamenti integrandosi perfettamente nell'ambiente.

Dry installation on grass

Installing directly on top of grass enables the creation of paths and walkways that blend in perfectly with the surroundings.

A secco su sabbia

La posa su sabbia permette di creare percorsi e camminamenti per spiagge e stabilimenti balneari.

Dry installation on sand

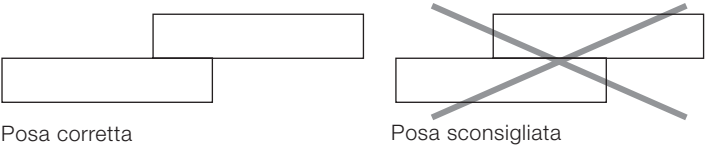

Installing on top of sand is ideal for creating paths and walkways on beaches and beach bars.

CONSIGLI DI POSA
INSTALLATION SUGGESTION

Durante le operazioni di posa evitare di far coincidere i vertici di una piastrella con la metà delle altre a fianco.
A tale scopo si consiglia inoltre di mantenere una fuga di almeno 1mm.
Do not lay large sizes in a brick pattern. To this end a mm joint is recommended.

CERTIFICAZIONE LEED

Sensibile alle tematiche dell'edilizia sostenibile e attenta ai parametri ambientali internazionali, ABK si è attivata per recepire gli standard LEED fin dalla fase di progettazione dei propri prodotti. LEED (Leadership in Energy and Environmental Design) è un sistema di rating delle performance ambientali degli edifici che promuove una progettazione sostenibile riguardante l'intero edificio per avere un basso impatto sull'ambiente per tutto il suo ciclo di vita. Il sistema si basa sull'attribuzione di crediti per ciascuno dei requisiti caratterizzanti la sostenibilità dell'edificio. Dalla somma dei crediti deriva il livello di certificazione ottenuto. Sebbene siano gli edifici e non i singoli prodotti a ottenere l'attestato LEED, i prodotti ceramici contribuiscono al raggiungimento dei crediti LEED.

LEED CERTIFICATION

Sensitive to issues of sustainable construction and attentive to international environmental parameters, ABK has taken steps to adopt LEED standards right from the design phase of its products.
LEED (Leadership in Energy and Environmental Design) is a rating system of the environmental performance of buildings, which promotes the sustainable design of a building as a whole so that it will have a low impact on the environment throughout its life cycle.
The system is based on credits awarded for each of the sustainability requirements met by the building.
The sum of the credits determines the level of certification obtained.
Although LEED certification is awarded to buildings and not single products, ceramic tile products contribute to the achievement of LEED credits.
